MERN Developer

Experienced MERN stack developer with over a year of freelancing expertise. Skilled in building robust web applications and APIs using MongoDB, Express.js, React, and Node.js. Proficient in front-end technologies including HTML, CSS, and JavaScript. Demonstrated ability to deliver high-quality projects on time, contributing to a 25% increase in client satisfaction and project success.

SKILLS

Express.js, JavaScript, MongoDB, Node.JS, ReactJs

EDUCATION

B.Tech in Computer Science

University College of Engineering and Technology Hazaribagh, Jharkhand. 08/2017 - 07/2021

WORK EXPERIENCE

Freelancing • 01/2023 - Present
MERN developer

- Spearheaded the development of a comprehensive cab service portfolio for a client, resulting in a significant enhancement of the client's online presence. This initiative led to a notable increase of 40% in user engagement for the client's business.

PROJECTS

StudyNotion

- An all-in-one teaching and learning platform using the MERN stack.
- Key features: user registration, course management, interactive lessons, discussion boards, analytics, and secure Razorpay payment integration.
- Implemented user ratings and reviews for informed choices. Led full-stack development, integrating Razorpay, ratings and reviews, and a streamlined shopping process.
- Gained expertise in front-end and back-end development, API integration, database management, payment gateways, user feedback systems, and user-friendly design.
